

DEBLINA ROY

Bengaluru, Karnataka, India

+91-9830502607 / 6290128947 ✉ 111deblina@gmail.com [in linkedin.com/in/deblina555](https://www.linkedin.com/in/deblina555) github.com/roy-deblina/

EDUCATION

MS Data Science | Northwestern University

Mar 2025 - Sep 2026

Relevant Courses - Machine Learning, Databases, Deep Learning, Linear Algebra, Probability, Optimization

GPA - 3.5 / 4.0 (Ongoing)

M.Sc (Hons.) Microbiology | St. Xavier's College, University of Calcutta

Jul 2017 - Jun 2019

Relevant Courses - Statistics

GPA - 3.82 / 4.0

B.Sc (Hons.) Microbiology | Surendranath College, University of Calcutta

Jul 2014 - Jun 2017

Relevant Courses - Physics, Chemistry

GPA - 3.65 / 4.0

EXPERIENCE

Oscowl AI

Feb 2024 - Present

Data Analyst

Hybrid / Hyderabad, Telangana

- Delivered actionable insights to improve user engagement in "Streamlingo", an app for real-time voice-to-voice translation among different Indic languages, which helped increase foreign business investments by 200x.

SchoolCrop

July 2024 - Dec 2024

Educator

Kolkata, West Bengal

- Worked independently to design lesson plans and assessments, significantly improving student grades by more than 35%.

Career break

Feb 2022 - Jun 2024

Took a career break to prepare for government exams.

Indian Institute of Chemical Biology, Kolkata

Nov 2020 - Jan 2022

CSIR Project Research Fellow - Data Analyst

Kolkata, West Bengal

- Analyzed 16S rRNA sequencing data to investigate microbiome variations in oral cancer patients, utilizing bioinformatics tools and statistical modeling to identify a 40% increase in pathogenic bacterial taxa in diseased individuals.
- Analyzed compounds to inhibit the COP1-ATGL axis, utilizing data-driven approaches to develop targeted therapies for non-alcoholic fatty liver disease, enhancing metabolic disease management.

PROJECTS

Diwali Sales Analysis | Python | [github: Diwali-Sales-Analytics](#)

April 2024

- Analyzed consumer behavior patterns during the festive season to improve sales by 10-20%.

Road Accident Data Analysis | Excel | [github: Road-Accident-Analytics](#)

April 2024

- Clean and analyze accident data, leading to actionable insights for enhancing road safety initiatives and reducing accidents at least by 50%.

Healthcare Data Analysis | Power BI | [github: Healthcare-Data-Analytics](#)

April 2024

- Developed an interactive dashboard that provided insights to improve resource allocation by more than 25%.

Swiggy Data Analysis | SQL | [github: swiggy-data-analytics](#)

April 2024

- Performed SQL queries to analyze restaurant data, identifying market trends and customer preferences that may help to guide strategic decisions.

Accenture Data Analytics internship | Excel | [github: Accenture-Analytics-&-Visualization-Internship](#)

June 2024

- Analysed Social Buzz's content strategy that helped to understand user preferences, guide future content creation and increase user retention time by 95%.

Foundational R Programming and Data Analysis | R | [github: R-Programming-Fundamentals-and-EDA](#)

April 2025

- Developed fundamental R programming skills by creating custom functions, performing vector and data frame manipulations, and conducting basic exploratory data analysis.

Foundational Statistics and Programming in R | R | [github: R-Foundational-Statistics-and-Programming](#)

May 2025

- Applied foundational statistical methods in R, including hypothesis testing, probability theory, and correlation analysis, and developed a custom Chi-Squared function to demonstrate core programming skills.

Abalone EDA using R | R | [github: R-Abalone-Exploratory-Data-Analysis](#)

May 2025

- Conducted a comprehensive Exploratory Data Analysis (EDA) on the abalone dataset in R, utilizing advanced data visualization to identify key predictors and limitations for age determination.

Abalone Harvest Strategy using R | R | [github: R-Abalone-Harvest-Strategy](#)June 2025

- Developed a data-driven harvesting strategy in R by applying multiple linear regression and ROC curve analysis to optimize yield and ensure sustainability.

Tree Growth and Distribution Analysis | R | [github: Tree-Growth-&-Distribution-Analysis-Using-Base-R](#)June 2025

- Built an R-based statistical analysis pipeline to solve real-world data problems involving vector ops, function modeling, and outlier detection using base R.

SKILLS

- Relational Databases (PostgreSQL)
 - R Programming
 - SQL Programming
 - Python
- NoSQL Databases (MongoDB)
 - Data Visualization - PowerBI
 - LaTeX
 - Numpy, Pandas, & Matplotlib
- Problem Solving
 - Critical Thinking
 - Collaboration and Teamwork

EXTERNAL COURSE CERTIFICATIONS

- Data Analytics Bootcamp: **Codebasics** | Azure Data Analytics Bootcamp: **Grow Data Skills**
- Python: **DataCamp** | Project Management 101: **Simplilearn** | SQL (Advanced): **HackerRank**
- Foundations Data, Data, Everywhere: **Google** | Statistics: **DataCamp** | Generative AI Fundamentals: **Databricks**

ACHIEVEMENTS

- Programming: **[HackerRank Profile](#) - Advanced SQL (Rated 5 stars) & Python (Rated 3 stars);**
- Competitive Exams: **CSIR NET LS (AIR 25, Dec 2019) & GATE Life Science (AIR 505, Feb 2020)**
